PUBLICATION PROCUREMENT AND EXPLOITATION CONFERENCE

101000 October 1956

Pentagon Room 2C468

AGENDA

1. Discussion of Consultants Bureau program for translation of Soviet scientific and technical periodicals. (Chairman will brief conferees on background of this problem at the conference)
2. Discussion of program described in par 18b, AR 381-25, and recommendations for improving the program and for establishing SOP's for processing the lists. How is this program to be coordinated with the "CERP" publication program? How should the problem of circulation and retention of periodicals be resolved?
3. Consideration of the preparation of a joint report on periodicals and serial publications received in D/A; in Washington.
4. Determination of an improved method of circulating serial publications to speed their receipt (without loss of graphics or articles) by the various interested agencies.
5. Consideration of the revision of ICM No. 23 and preparation of similar ICM's on areas other than the USSR.
6. Consideration of the feasibility of preparing a priority list for foreign publications-- by country and/or by subject.
7. Discuss preparation of a guide for briefing visitors to the USSR on publication procurement.
8. Consideration of a coordinated program for exchange of unclassified publications with "Iron Curtain" countries.
